Frank Bartlett Steele 1864 - 1952

RESOLUTION BY BOARD OF TRUSTEES OF THE NATIONAL SOCIETY OF THE SONS OF THE AMERICAN REVOLUTION ON DEATH OF SECRETARY-REGISTRAR-GENERAL EMERITUS, FRANK B. STEELE:

THAT WHEREAS, Almighty God has seen fit to call to his eternal resting place our late compatriot and Secretary-Registrar-General Emeritus Frank B. Steele, and

WHEREAS, his passing has caused the loss of a very fine citizen, patriot and compatriot of this Society, and

WHEREAS, it is believed that he made a substantial contribution during his lifetime to patriotic societies and good citizenship, and particularly to The National Society of the Sons of the American Revolution while serving for many years as Secretary-Registrar-General;

NOW THEREFORE BE IT RESOLVED, that the Board of Trustees of the National Society of the Sons of the American Revolution in meeting assembled at Washington, D. C. this second day of March, 1952, go on record expressing its deepest sympathy over the death of our late compatriot and Secretary-Registrar-General, Frank B. Steele; that we particularly acknowledge the contribution that he made during his lifetime to patriotic societies and good citizenship, and particularly to The National Society of the Sons of the American Revolution while serving as its Secretary-Registrar General; that a special page in the minutes of this Executive Committee be set aside in his memory; that a copy of this Resolution be sent to his bereaved widow, expressing deepest sympathy, and that a copy of this Resolution be specially printed in the next issue of our magazine.

A TRUE COPY of the Resolution adopted by the Executive Committee of the National Society of the Sons of the American Revolution on the 2nd day of March, 1952, in Washington, D. C.:

THE EDITOR SAYS:

Contrary to our expectations, comparatively few of our correspondents have made mention of the color used on the cover of the January issue of the Magazine. Now, we can confess that the "buff" color was an experiment which was tried as an answer to some who have expressed their dislike of the more vivid yellow which has been used during past years. Those who have expressed an opinion of the color of the January issue indicated that they prefer it to the yellow. Consequently this issue is printed in the same shade, and we hope it meets with your approval.

One of our unsolved problems, is that of securing more advertising for the Magazine. It has been suggested that there are many of our members who are associated with business organizations which spend substantial sums for institutional and good-will advertising, and that these members should be able to secure some advertising for our Magazine. This is a welcome suggestion, if we can have the cooperation of our members. To make the plan work, it is necessary for the individual member to assume the responsibility of letting the Editor know of the possibility of obtaining such advertising, and the Editor will be more than willing to furnish facts and details.

We feel somewhat reluctant to inject a commercial note into this column, but we intend to make the Magazine more important and more interesting to our members, and to do so it is necessary to have additional revenue with which to accomplish the improvements we have in mind. Therefore, any help from our members in securing advertising will be appreciated.

The popularity of the news of State Society activities is attested by the number of letters containing comments, received by the Editor. State and Chapter officers can render great assistance by furnishing brief accounts of meetings and activities in ready-to-print form. It is sometimes difficult for the Editor to determine the most important feature of a meeting at long range.

Until we meet—in Houston, Texas, May 18, Yours for a bigger and better Sixty-Second Congress,

HAROLD L. PUTNAM, Editor

PRESIDENT GENERAL'S MESSAGE

MY DEAR COMPATRIOTS:

Congratulations and sincere appreciation to all of you who have participated in the activities of our Society during the last two years. Your interest and efforts are reflected in greatly improved public relations, wide spread recognition and acceptance of the stands we have taken on vital issues confronting our Country. You have demonstrated foresight, courage and energetic willingness to stand Society and your officers to task for carup as true Americans.

ed a readiness to assume its full responsibility, as evidenced by its splendid attendance at all Trustee's meetings, and this assumption of responsibility by the Trustees promises much for the growth and strength of the Society. My personal thanks goes to every Trustee for his unselfish service: to our headquarter's staff and particularly to the Executive Secretary for the splendid spirit of cooperation which has existed throughout the period.

Our next Annual Congress, to be held in the city of Houston from May 18 to May 22 inclusive, promises to be one of the largest, most interesting, and active congresses which we have ever had and I urge every compatriot to make every effort to attend. Your Society will mean more to you if you do attend and take part in the programs and activities of the Congress.

I am convinced that our Society will grow in strength and unity if the secretary of every state society and chapter could attend the Congress. To this end may I suggest that it would be proper and desirable for the State Societies and the Chapters to assist their secretaries financially so that they could attend. It has been our experience throughout the years that the inspiration of a Congress is reflected most definitely through the secretaries who have attended. It is only proper to state that it is the duty of every national officer, trustee, and state president to be at the Congress as a part of his official duty.

In closing may I say to the entire Society that if we are to attain the stature of which we are capable, the strength which we need to carry on our programs, and the position which our Society rightfully should assume, that it depends upon the individual compatriots, the Boards of Governors and Managers of the local and state units, the interest that they display and the work which they perform. In my visits with the various units, it has been very evident that the groups which hold regular meetings are the most successful: that those which have discussions in which the individual compatriot can participate are the most productive and it is clear that the activities of our Society can be greatly enhanced by adopting the program of Doing rather than Talking. NOTES FROM THE EXECUTIVE SECRETARY'S NOTE PAD

It is most gratifying to learn, as has the Executive Secretary during recent visits to State and Chapter organizations, that there is a re-awakened interest in the affairs of our National Society. Our visit with the Massachusetts Society in Boston, on February 22 served to impress us with the fact that our Compatriots in that State are following the program recommended by the National Society and are making splendid progress in strengthening the membership and increasing the scope of activities. On the same trip we had the privilege of meeting with the Connecticut Society in Bridgeport on February 23, and here again we were greatly encouraged by tne attendance at the Annual Meeting and by the reports of activities which were presented.

During the month of March we had the pleasure of meeting with members of the North Carolina and South Carolina Societies. Meetings were held in Durham, Charlotte, Columbia and Charleston. In each instance plans for new projects and programs for increased membership were discussed and formulated.

There is one inescapable conclusion to be drawn from these visits. Our members are interested in doing work for our Society, and when informed of the projects our National Society has undertaken, they are ready to support them. Our most apparent weakness, is that of failing to get all of the information to all of our members. It has been suggested that the issuance of a mimeographed bulletin, mailed to State and Chapter officers, between issues of the Magazine may help to remedy this weakness. The arguments in favor of such a bulletin were reinforced in the opinion of the Executive Secretary during his visits within recent weeks. It is more than possible that such a plan will be adopted in the immediate future, depending of course, on the condition of the Budget. The Budget is an everpresent factor in the consideration of all projects, and there are a number of worthy suggestions which have been offered, and have been laid aside until such time as the Budget may permit their adoption.

We are more than a little pleased to be able to report that all of the microdelivered; that the storage cabinets are being filled and the films catalogued; that arrangements have been made by President General Hall for the storage of the negatives in a specially constructed vault in an undisclosed location and that the storage will be without expense to our Society. This marks completion of another of the major phases of our rehabilitation program.

Despite the fact that we furnish transmittal forms for use in submitting applications, and that these forms are available to State Secretaries, Treasurers and Registrars, many of our State officers continue to add to their burden, by writing letters containing information which can be more easily furnished on the transmittal blank. This same transmittal blank lists the admission, reinstatement and supplemental fees. We urge all State officers to use these yellow transmittal forms, and if more forms are required they will be sent upon request.

There are a few of the Historical Art Calendars of 1952 still available. The price is .30 cents each, and either stamps or coin will be acceptable.

Perhaps, mention should be made of the change in the price of copies of apfilms of our application papers have been plication papers. The Board of Trustees established the price of \$2.00 at the meeting of November 3 and 4. There was a tacit understanding that members might obtain copies of their own papers for \$1.00, but that the \$2.00 price would apply to all others.

> It may not be necessary to remind all of you that the Congress in Houston is near at hand. Other sections of this issue of the Magazine, will furnish details of what the delegates may expect. However, it seems fitting that some recognition should be given to the splendid work our Texas Compatriots are doing in making plans for the Sixty-Second Congress. Under the Chairmanship of Compatriot Charles E. Gilbert, Ir., an interesting and complete program has been prepared and there is every reason to believe that our 1952 Congress will be one of the finest in the history of our Society.

We'll be seeing you in Houston,

Fraternally yours, HAROLD L. PUTNAM, Executive Secretary

A REPORT TO THE COMPATRIOTS OF THE SONS OF THE AMERICAN REVOLUTION RE: PATRIOTIC EDUCATION, INC.

DEAR COMPATRIOTS:

For over three years many of the members of our Society have been working on the idea of incorporation of a non-profit organization to handle Americanism and citizenship in conjunction with and supplementing the work of the Sons of the American Revolution.

In Atlantic City a committee was appointed with authority to lay plans. This committee did a great deal of work and at San Francisco the Congress authorized the appointment of a committee with power to proceed with incorpora-

At that time it was seen necessary to separate the corporation from the Sons of the American Revolution in order to avoid complications both ways. This committee under the able leadership of Judge Ben H. Powell and with the expert advice and counsel and energetic work of Aaron Sargent progressed to a point where definite plans were made and the general idea was worked out to a point where we were ready to incorporate.

At this point, our good friend Aaron Sargent found it necessary to take the position that he could not be active in the organization of this corporation for reasons which we all accept as being sufficient but we regretted very much that he found it necessary to terminate his activity as secretary of the committee.

At the request of Judge Ben Powell, the writer assumed the responsibility of taking up where Aaron had left off to work out a tangible plan for development of the corporation and to actually provide for its incorporation.

After many hours of work with Clarence Shriner of Ohio and other members of our Society, the plan came to a point where on January 26, in Washington, D. C., at our Headquarters building an organization meeting was held. At this meeting the following committee was present:

> Judge Ben H. Powell III Clarence E. Shriner A. Herbert Foreman Alonzo Newton Benn Adm. William Rea Furlong Robert H. McNeill Wallace C. Hall

Judge Ben H. Powell III, Chairman of the Board Wallace C. Hall, President Clarence E. Shriner, Executive Vice President A. Herbert Foreman, Secretary-Treasurer

At the conclusion of that meeting, the Articles of Incorporation were immediately filed in the Secretary of State's office at Springfield, Illinois, the corporate Charter issued and the Certificate of Incorporation bears date, January 31, 1952. This has been recorded in the Recorder's office for Cook County, Illinois, as required by the Illinois law and the corporation is in business and ready to go ahead.

Alonzo Newton Benn was named Resident Agent in the State of Illinois and his home address there is used as our children and not working against our registered office.

It was decided, however, that the headquarters of the company should be in Detroit, Michigan, and temporary space has been obtained to house the pperation during the formation period.

The most important news that I have for you is that your writer was able with much argument and considerable persuasion to convince Clarence E. Shriner of the Boy Scouts of America to leave the Boy Scouts of America and become the Executive Vice President of this or-

You all know Clarence Shriner. You

All of the men at the meeting in Washington were of one mind and that is that it is high time that some definite constructive steps were taken to improve the citizenship in this country. We agree that the proper method is through education and that we should go into the schools and help the teachers produce a better grade of citizenship through more effective methods of edu-

For the last several years we have been complaining about what our schools were doing or not doing but we have now reached a point where we all realize that in order to offset it we have to do something definite and constructive. We also fully realize that in order to work through the schools we must create a receptive attitude on their part and convince them that we are working for the good of the schools and the good of

One of the most difficult tasks we have ahead is to overcome the attitude of those who have been dictating the conduct of our schools over the last 20 years and convince the teachers themselves and the Boards of Education that education is a matter in which the parents and the public spirited and public minded citizens are vitally interested and that we do not feel that leaving it to any one partciular group is the answer to the problem. I realize this presents some real difficulties and we will have Clarence Shriner has had over 30 to use a lot of good common sense and ing the last several years he has been will which is necessary for us to accomplish our purposes.

In addition to this, we have full intention of maintaining a research staff which will produce materials for discussion groups, for adult education and we hope eventually to get into the field of (Continued on page 13)

EXTENSION OF REMARKS

HON. JOHN T. WOOD OF IDAHO

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 18, 1951

Mr. WOOD of Idaho. Mr. Speaker, I am herewith appending an article published by the American Flag Committee, 876 Granite Street, Philadelphia, Pa., bearing the title "A Report SCHEME TO PERVERT PUBLIC to the American People on UNESCO."

How anyone who venerates and loves Old Glory as the symbol of the deathless march of the United States through the years to fulfill its destiny as a free and independent Republic can read this documented evidence of the greatest and most malignant plot in history against the future of this country, and its children's children, is more than I am able to comprehend.

we be that we permit this band of spies and traitors to exist another day in this land we all love? Are there no limits to our callousness and neglect to palpable and evident treason stalking rampant through our land, warping the minds Teachers. and imaginations of even our little children, to the lying propaganda and palpable untruths we allow to be fed to ship. them through this monstrous poison?

It is my sincere hope that every parent of every child in America may be able to read the inroads that this infamous plot has already made in the educational system of America, and, reading, may feel impelled to do something about it, both locally and nationally; and particularly at the voting booth.

Strong words? Yes, but not strong enough to alert you and the American people to a proper understanding of the UNESCO menace, which, unless met squarely and eradicated by the concerted action of parents, teachers and the general public, may shortly transform our schools into laboratories for the systematic destruction of all sense of national allegiance and loyalty in the minds and hearts of America's school children.

UNESCO's scheme to pervert public education appears in a series of nine volstanding," which presume to instruct kindergarten and elementary grade teachers in the fine art of preparing our youngsters for the day when their first loyalty will be to a world government, of which the United States will form but an administrative part. UNESCO's booklets read like the propaganda put out by United World Federalists, Inc., which has been denied tax exemption because of its specifically political nature. Aside from encouraging the public school teachers to make war upon the ideals of patriotic national devotion which UNESCO sees as infecting our children in the home, precisely what kind of instruction would the authors of these UNESCO booklets introduce by influencing public opinion, besieging the authorities with material demands in the manner of a trade-union, and by pressing for a Children's Charter and a Teachers' Charter, which refer to instruments prepared in treaty form, making UNESCO principles the supreme law of the United States? Let's see.

TEACHERS URGED TO SUPPRESS AMERICAN HISTORY

First of all, teachers are urged to suppress American history and American geography, which might enhance pro-American sentiments which UNESCO wishes to sterilize. Here is how booklet V, on page 11, treats the problem as it affects children aged 3 to 13 years:

TRUTH IS TO BE SUPPRESSED

Truth, like orthodox and reasonable teaching methods, is to be suppressed wherever and whenever it stands in the way of glorifying those things which are foreign above those which are particularly American. On page 14, booklet V, there appears the following advice:
