Vice Commander's Dispatch

With the turn of the calendar from 2016 to 2017, what can be argued as the most active time of the year for the National SAR Color Guard is once again upon us with a total of 10 national events scheduled between now and the end of March. The updated calendar of events is published in this issue and I would encourage as much Color Guard participation as possible at each event.

I would also encourage as many compatriots as possible to attend the Spring Leadership Meeting in Louisville from March 2nd to the March 4th. The National Color Guard Committee will meet at this time and elect the 2017 Color Guardsman of the Year as well as discuss issues related to the operations of the Color Guard.

This meeting is always a great time to meet many compatriots from around the country and see how the National SAR and Color Guard operate.

On December 7, 2016 seven compatriots and one member of the California Society Ladies Auxiliary attended the National Rifle Association – National Muzzleloading Rifle Association (NRA-NMLRA) Basic Muzzleloading Shooting Course, sponsored by the West Victor Valley Shooting Club in Adelanto, California. Our Master Instructor was Mr. James Madry of the NRA-NMLRA. This all day class included classroom instruction, range time, and a fifty question written test all designed to stress safety. Students were able to fire various types of muzzleloading rifles, shotguns, and muskets, including flintlock, percussion cap, and shot shell primered versions. Successful course completion resulted in all eight students being issued Certificates of Completion by the National Muzzleloaders Association, which is now a part of the National Rifle Association.

For many of us this was the first time we were able to fire a patched round lead ball through our muskets. This alone was worth the price of admission, and quite an education for us city slickers. We also had fun firing all types of different muzzleloaders including a double barrel shot gun, Civil War era rifle muskets, and the modern style hunting rifles. Firearms have come a long way since our patriot ancestor's time.

Even though every member of the California Society, Riverside Chapter, SAR Color Guard has experience shooting and completed some form of previous training, ranging from basic firearms

safety to advanced law enforcement SWAT operations; the goal of the Riverside Chapter Color Guard is to continue our excellent safety record and lower our insurance costs by documenting and standardizing our training program. This course provided our members a basic level of certified safety training that is relevant to our historical demonstration only type activities. The NRA-NMLRA is the premier organization when it comes to muzzle loading firearms and provides the gold standard of certificated training most applicable to our color guard activities.

We were all glad to attend and pass the course. We are planning another class in the spring and understand more compatriots and ladies too are interested in completing the course. Please feel free to contact me for additional information.

Respectfully Submitted,
 Brian Stephens, Color Guard Commander, Riverside Chapter, SAR

From the Editor

Welcome compatriots.

I want to thank all of the color guard Commanders and members who took the time to submit photos and content for this issue.

This issue has **18 state societies** submitting color guard activity from the last 3 months. This is good to see. I'm sure that every state with a color guard, either at the state level or the chapter level, will have some Fall activities to report for the Winter issue. These could include **Veterans Day parades, Wreaths Across America events, battle site commemorations, or any of the other 13 events listed elsewhere in this issue.** I will look forward to having those state color guard commander absent from this issue submitting something for the Winter issue.

I was pleased to have content from some states submitting duplicate copies of the same content from different SAR members. This is a good thing in that members feel comfortable enough to send something in.

So that it will be easier for me to collect, compile, and format the issues in the future, let's review the preferred steps:

- Chapter color guard commanders, or a chapter officer, should submit their content to the state color guard commander for him to review and forward to me. This ensures

that the state color guard commander is kept informed of chapter activities - Chain of command issue.

- The preferred method of submissions is by e-mail with attachments.
- **Please do not embed photos into any document** (WORD, e-mail, or PDF) - submit photos separately from accompanying document. Embedding a photo reduces the resolution and limits the photo size that I can use in this publication.
- Pictures should have accompanying them a list of those in the picture and who took it. Ex: 'Photo-img-1234 is of event X, with members X,Y, & Z. Photo by ABC'

When submitting content (photos and text) please consider this. **The Colorguardsman** is for spreading the news about color guard activities. Whenever your state or chapter color guard does something, that event information is what should be submitted. State or chapter presentations **not** involving the color guard are more appropriately submitted to the **SAR Magazine**. When compiling the issue, I look for and select those color guard activities over chapter non-color guard presentations.

Thank you for your help. Please forward this issue to your state's chapter color guard commanders for dissemination amongst their color guard members.

A More Accurate Representation

By: Mark C Anthony, Vice-Commander

Historical and educational objectives are two of the objectives professed by the SAR. These are seen in the many programs promoted by the SAR to the youth and general public of the United States. As has often been said, the Color Guard is the most visible and recognizable aspect of the SAR to the youth and general public. Thus there is a natural inclination for members of the Color Guard to provide an informed representation of the Revolutionary Era soldier.

Since its inception in the late 1980s, the Color Guard has promoted and encouraged participation by all members of the SAR who wish to expend the time and money to acquire a uniform and the related accessories. Over the years this has resulted in a variety of formal uniforms and militia clothing ranging from historically accurate clothing to reproductions using modern material to a mixture of historically accurate and modern material for comfort, convenience and safety reasons.

However, there has never been a mandate on type of uniform or materials used. The only mandate that currently exists is the prohibition of wearing medals and decorations on uniforms at National events. This policy was adopted so that the Color Guard would project a more correct image of the soldiers of the Revolutionary Era who did not wear medals on their uniforms. This policy is only effective on the national level leaving states and chapters to enforce it on those levels at their discretion.

Along a similar vein, The SAR Handbook provides a listing of commands for use by the Color Guard. These commands are a combination of modern and Revolutionary Era commands. It is this mixture of commands that has raised some concerns recently as to whether the Color Guard should exclusively use more historically accurate commands in an effort to portray a more historically accurate depiction of our forefathers.

In response to these concerns, some research was undertaken to see what commands were used during the time of the Revolution. The primary document reviewed was *Regulations for the Order and Discipline of the Troops of the United States* written by Baron von Steuben. Commonly known as the Blue Book, this manual was the drill manual for the United States Army from Valley Forge until the War of 1812.

The following commands are taken directly from Baron von Steuben's manual.

- **Attention:** At this word the soldier must be silent, stand firm and steady, moving neither hand nor foot, (except as ordered) but attend carefully to the words of command. This attention of the soldier must be observed in the strictest manner, till he receives the word "Rest".
- **Rest:** The soldier may refresh himself, by moving his hands or feet; but must not sit down or quit his place, unless permitted to do so.
- **To the Right – Face**
 - 1st motion: Turn briskly on both heels to the right, lifting up the toes a little, and describing the quarter circle.
 - 2nd motion: Bring back the right foot to its proper position, without stamping.

To the Right—Dress!

The recruit must then be taught

The Facings.

To the Right,—Face! Two motions.

1st. Turn briskly on both heels to the right, lifting up the toes a little, and describing the quarter of a circle.

2d. Bring back the right foot to its proper position, without stamping.

To the Left,—Face! Two motions.

1st. Turn to the left as before to the right.

2d. Bring up the right foot to its proper position.

To the Right about,—Face! Three motions.

1st. Step back with the right foot, bringing the buckle opposite the left heel, at the same time seizing the cartridge-box with the right hand.

2d. Turn briskly on both heels, and describe half a circle.

3d. Bring back the right foot, at the same time quitting the cartridge-box.

When

When the recruit is sufficiently expert in the foregoing points, he must be taught the different steps.

The Common Step

Is two feet, and about seventy-five in a minute.

To the Front, — March!

The soldier steps off with his left foot, and marches a free, easy and natural step, without altering the position of his body or head, taking care to preserve a proper balance, and not cross his legs, but to march without constraint in every sort of ground: The officer must march sometimes in his front and sometimes at his side, in order to join example to precept.

Halt!

At this word the soldier stops short, on the foot then advanced, immediately bringing up the other, without stamping.

- *To the Left – Face*
- 1st motion: Turn to the left as before to the right
- 2nd motion: Bring up the right foot to its proper position
- *To the Right About – Face*
- 1st motion: Step back with the right foot, bringing the buckle opposite to the left heel, at the same time seizing the cartridge box with the right hand.
- 2nd motion: Turn briskly on both heels, and describe a half circle.
- 3rd motion: Bring back the right foot, at the same time quitting the cartridge box.

The Common Step is the length of two feet, and about seventy-five per minute.

- *To the Front – March:* The soldier steps off with his left foot, and marches a free, easy and natural step, without altering the position of his body or head, taking care to preserve a proper balance, and not cross his legs, but to march without constraint in every sort of ground. The officer must march sometimes in his front and sometimes at his side, in order to join example to precept.

- *Halt:* At this word the soldier stops short on the foot then advanced, immediately bringing up the other, without stamping.

The following commands and responses are adapted from the usage of a firelock to fit the primary duty of the SAR Color Guard today which is the presentation of the colors at various events and meetings since there were no specific commands for the handling of colors to be found in the manual.

- *Shoulder Colors*
- 1st motion: Bring the colors the right shoulder using the left hand and supporting the pole with the right hand.
- 2nd motion: With a quick motion, bring the left hand down by your side.
- *Carry Colors*
- 1st motion: With a quick motion, bring the left hand over to grasp the pole.
- 2nd motion: Grasp the base of the pole with the right hand and lift the pole so that the right hand is even with the waist.
- 3rd motion: Adjust the left hand so that it is even with the face.
- *Present Colors*
- 1st, 2nd & 3rd motions same as Carry Colors
- 4th motion: Step back briskly with the right foot, placing it a hand's breadth distant from the left heel, at the same time bringing down the pole into a 45 degree angle to the body.

To be very clear: These commands and responses are only being encouraged at this time. This is not a mandate.

The intent is to provide information that can be incorporated into the current operations of the various state and local color guard units so that they provide a closer representation of the Revolutionary Era soldier.

The usage of these commands by the Color Guard is seen as an easy and inexpensive way to increase the historical accuracy of each unit much like the current policy of not wearing medals or decorations.

On Friday, September 9th, the Mary Floyd Tallmadge (Litchfield) Chapter of the Connecticut Daughters of the American Revolution unveiled a commemorative marker that they placed under a stained glass window that is a tribute to Litchfield County's 3,000 Revolutionary War patriots.

The Mary Floyd Tallmadge Chapter commissioned Frederic Crowninshield to design the window and they gave it to the Litchfield Historical Society on July 5, 1907.

The marker will now explain the significance of the window to those who come to admire it.

Members of the Connecticut Line, Color Guard/Living History Unit of the Connecticut Society of the Sons of the American Revolution manned the historic Revolutionary War Office during the Lebanon annual Christmas tree lighting.

The Gen. Israel Putnam Branch #4 CTSSAR presented Captain Sal Tarantino, Commander of Sheldon's Horse, the 2nd Continental Light Dragoons, the SAR Bronze Good Citizenship Medal for his 40+ years of service (Revolutionary War Living History) to the community. 2016 also marks the 240th Anniversary of the 2nd Continental Light Dragoons. Captain Sal Tarantino has been a friend to the branch since we first met him back in February 1996 at our branch's first annual Revolutionary War Exhibit/Muster at the New England Civil War Museum in Rockville, CT. The branch held this event annually in commemoration of George Washington's Birthday, the largest event of its kind in New England. From

1997 to 2003 it was held annually at the Old State House in Hartford, CT. Over the years we have participated with Sal and the Second Continental Light Dragoons in numerous Revolutionary War Reenactments/Living History events throughout New England.

Members of the 11th Connecticut Regiment (the Gen. Israel Putnam Branch #4 CTSSAR Color Guard/Living History Unit) with their battered standard officially go into winter quarters ending their 22nd year of Revolutionary War Living History. It has been an honor to command the regiment, and to serve as Branch Color Guard Commander for the past 22 years.

Members of Gen. Wolcott's Sixth Militia Brigade, the Color Guard unit of the Gov. Oliver Wolcott, Sr. Branch of the Connecticut Society of the Sons of the American Revolution, participated in the ceremony. Assisted by drummer Chatman Elliott, they marched in and posted the Betsy Ross flag. At the end of the ceremony they fired a three-volley musket salute.

After the ceremony, they posed for a photograph under the portrait of Col. Benjamin Tallmadge which is displayed in the Liggett Gallery inside the Litchfield Historical Society. The oil on canvas portrait was painted by Ralph Earl in 1790. It is a full length portrait of Benjamin Tallmadge (1754-1835), and his young son, William Smith Tallmadge (1785-1822).

The Park was named after a speech given by Franklin Delano Roosevelt, President of the United States to the U.S. Congress. Given on 6 January 1941.

In the future days, which we seek to make secure, we look forward to a world founded upon four essential human freedoms.

*The **first** is freedom of speech and expression — everywhere in the world.*

*The **second** is freedom of every person to worship God in his own way— everywhere in the world.*

*The **third** is freedom from want — which, translated into world terms, means economic understandings which will secure to every nation a healthy peacetime life for its inhabitants - everywhere in the world.*

*The **fourth** is freedom from fear — which, translated into world terms, means a world-wide reduction of armaments to such a point and in such a thorough fashion that no nation will be in a position to commit an act of physical aggression against any neighbor — anywhere in the world.*

The Genl George Rogers Clark Chapter, Sons of the American Revolution, formally marked the grave of Revolutionary War Patriot Francis Roach on Sunday, August 28th at the Worden Lutheran Cemetery, Worden, IL.

Roach was born in Stafford County, VA in 1739. Orphaned as a boy, he was bound to a master who removed him to North Carolina where he learned the hatter trade. He was a resident of Dobbs County NC when he entered the service under Captain Joseph Sessions and Lieutenant Stephen Pipkin. Roach later moved to Dougherty Station near Danville, KY and was sent out several times to guard the frontiers. In 1782 he entered service under Genl George Rogers Clark. After the war, Roach eventually moved to what was then St. Clair (now Madison County) IL. He received a pension for his military service. He lived on the land which is now the cemetery.

During the past year the Signers Chapter Membership Development Committee undertook some new strategy's to further engage the public. At a Clark County NV Genealogy Society (CCNGS) meeting Gary Parriott was invited to set up a booth at the upcoming Genealogy Fair in July. He readily agreed to this opportunity and promised to "Dress" for the occasion (in Revolutionary War uniform) and to create an interesting display. Ultimately the entire Committee got involved with the project displays and manning of the booth. Family matters took Gary out of town but Compatriots, Charles Smith and Larry Kesler along with Fred Boughton continued with the Genealogy Fair and reported a huge turnout and a lot of interest in the Sons of the American revolution. At the November meeting of the CCNGS Gary Parriott distributed pamphlets and business cards related to the Patriot Bio Project and spoke to the group on the importance of recording and preserving the heritage of our Patriot ancestors. During intermission he answered questions from folks that expressed a keen interest in their own Patriot ancestors. Under the leadership of Membership Development Chairman Fred Boughton the Chapter advrting pamphlets were updated and distributed throughout the Public Library's in Clark County.

TENNESSEE

On October 15th, 2016 the Tennessee Sons of the American Revolution gathered in a small family cemetery to honor 3 revolutionary war soldiers. Descendants of Pvt. Seth Babb, Cpl. Joseph Hawkins and Lt. Henricus Stonecypher gathered in the Babb Family Cemetery in Chuckey, TN. The cemetery was just recently restored by the efforts of the Kings Mountain Chapter of the Tennessee Sons of the American Revolution

Pvt. Seth Babb Sr., born in October 1760, served in the Virginia Continental Line under the command of Col. C. Dabney, and fought at the Siege of Yorktown in 1781. According to first-hand accounts, Babb saw Gen. George Washington and Gen. Lord Cornwallis after the British surrender. He completed his service in Richmond in the Virginia State Legion and was discharged in 1782.

Cpl. Joseph Hawkins, born 1753, served in the 2nd Virginia State Regiment, which joined the Continental Army for training at Valley Forge. He served from March 1778 through November 1779, also participating in the Battle of Monmouth, N.J.

Lt. Henricus Stonecypher contributed civil service as a juror in North Carolina's Rowan and Wilkes counties during the Revolutionary War. He enlisted in the Wilkes County Militia under Col. Benjamin Cleveland and served in the battles of Cowpens & Guilford Court House.

The Tennessee State color guard presented the colors at the start of the ceremony and the soldiers were honored with a three round volley of musket fire.

The members of the color guard included Commander John Clines, Darryl Addington, Dave Carr, Jim McKinney, descendants Rick Stonecypher & Ben Stonecypher, and David Rutherford.

Return Jonathan Meigs was born Dec. 17, 1740, in Middletown, Connecticut. He served as colonel in the 6th Connecticut Infantry, commanded by General Anthony Wayne. He also served under General Benedict Arnold and participated in the failed assault on Quebec. He was captured by the British but was exchanged during the following year. In May 1777, at the head of 170 men he attacked the British troops at Sag Harbor, Long Island, New York taking ninety prisoners, and destroying twelve vessels and much forage without the loss of a single man. For this brilliant exploit, The United States Congress voted him thanks and he was presented a sword.

The second service took place in the David Campbell Memorial Park in old Washington.

David Campbell was appointed major in the fall of 1780 in the Botetourt County, Virginia militia serving under the command of General Nathaniel Greene. During the same year he qualified as a practicing attorney in Washington County, Virginia and spent his time either fighting in the Revolutionary War or battling in the courtroom.

Members of the Tennessee State SAR Color guard were present to present the colors at both ceremonies and fire a 3 volley musket salute which concluded with a double cannon fire volley. (Next page)

pear on the calendars are included in the rows that are greyed out. Since the specific contact person can change frequently, the hosting state society or chapter is listed as the contact point. Compatriots wishing to get more details about a specific event are directed to contact the hosting state society or chapter. If a state or chapter wishes to have an annual event added, they need to contact the chairman of either committee.

Please note that dates are subject to change, so compatriots are encouraged to confirm the actual date with the hosting entity. This is especially the case with the Battle of Saratoga as the National Park Service has indicated that it is considering holding two separate events with one focusing on the American side and the other focusing on the British. This plan may change into just a single event. Please confirm with the Empire Society and/or NPS for final details as the initial September event date approaches.
