

Information Regarding Committee Assignments

The National Society's committee system is important for the continued success of the Sons of the American Revolution. Between Annual Congresses and Leadership Meetings, the National Society's Committees are generally responsible for overseeing the various programs, provide advice and recommendations to the Executive Committee and the Board of Trustees, and conduct the business of the society. Committees are authorized and staffed consistent with the following: Bylaw No. 18 (Executive Committee), Bylaw No. 19 (Standing Committees), Bylaw No. 20 (Nominating Committee) and Bylaw No. 21 (Special Advisory Committees and Program Committees). The Bylaws authorize the President General to form other committees as necessary.

Reports from each Committee Chair are distributed at each Leadership Meeting and published as an electronic volume to each delegate attending the Annual Congress. In addition, Committee Chairs are encouraged to publish meeting notes following each Committee meeting. Committees may hold additional meetings electronically throughout the year. Due to time restrictions, Committees under the purview of parent Committees are expected to meet electronically to perform a majority of their business, especially prior to Leadership and Congress.

While some Committees are under the purview of parent Committees, they carry the same status as other independent Committees. Their respective Committee Chairmen and Vice Chairmen carry the same rights, responsibilities, and prominence as their parent Committee counterparts. The current committee structure was implemented to meet several goals. Namely, Committees with common objectives and areas of focus are now grouped together. This will enhance communication and facilitate stronger working relationships. The new structure also makes more efficient use of limited time and space accommodations at Leadership and Congress.

This document contains the list of 2023-2024 National Society Committees. Each Committee listing contains a brief description of the purpose of the Committee and identifies Committee Chairs, Vice Chairs, and other Committee members. Certain Committees have additional membership requirements. Although Committee assignments will be updated in the Member Database, this list is the official Committee assignment and participation list.

Active participation in the committee process is essential for operation of the National Society. Compatriots interested in serving on a particular Committee should contact the Committee Chair. All Committee additions must also gain approval from their parent Committee Chair (if applicable) prior to approval by the President General. The President General approves all committee appointment requests. National Headquarters cannot make changes to Committee membership without the President General's authorization. Compatriots needing to make corrections to their contact information should contact National Headquarters and the PG's **National Committee Coordinator, Keith Weissinger, kweiss47@comcast.net**, who will update this report periodically.

--Genealogical Research System Committee

The Committee was established to develop the detailed requirements which will be central to the successful implementation of an SAR Genealogical Research System (GRS). In its efforts to prepare a request for proposal (RFP) it is to: (1) identify stakeholders who will access the GRS; (2) identify all the needs a GRS would satisfy; (3) update initial database considerations; (4) establish procedures for the transfer of data from the Patriot Research System (PRS) to the GRS; (5) determine what groups will need to sign off before an RFP is made; (6) provide cost estimates and time lines for ultimate approval by the Trustees; and, (7) determine who will supervise and audit the RFP results once the work is started.

SAR Annual Conference On The American Revolution Committee (SARACAR)

Consistent with the SAR's Congressionally-chartered purpose to be an educational organization, this Committee organizes an annual academic conference on the American Revolution. The objectives of the conference are two-fold: (a) to sponsor an intellectually rigorous, academic conference for university-level scholarship of the American Revolution, and (b) for each SAR Annual Conference, to produce a peer-reviewed, edited volume of the papers presented at that conference. Each SAR Annual Conference on the American Revolution is facilitated by the SAR Distinguished Scholar, who is named by the SAR, who should be a professor of history, government, or American Studies at an accredited university within the United States, and whose primary field of study is related to the American Revolution. The SAR Distinguished Scholar has traditionally been a member of the Committee *ex officio*.

Second Floor Buildout RFP *Ad Hoc Committee*

This *Ad Hoc Committee* was created at a meeting of the Executive Committee on 23 September 2021, under PG Davis Wright. The Committee approved an expenditure of an amount not to exceed \$35,000 from the accumulated undistributed income of the Building and Outreach Education Fund to obtain bids for the completion of the design of the second-floor meeting space and roof top venue. A completed design would allow for competitive bids to be obtained with the approval by Trustees at a future Leadership meeting.
